About **AMREF INTERNATIONAL UNIVERSITY**

Amref International University (AMIU) was established in 2017 as a Premier Pan African University of health sciences fully owned by Amref Health Africa. AMIU is founded on the experience and intellect of Amref Health Africa, which is reputed with over 65 years of quality and innovative public and community health interventions in over 30 countries in Africa.

With this work, the need to train health workers in communities was evident and the response was short tenure training courses by the Amref Training Centre (AITC) and later the Directorate of Capacity Building (DCB), the predecessor of AMIU. These Amref training programmes run for over 40 years, have produced alumni spread throughout the world who have created the name recognition, reputation and brand that Amref is today.

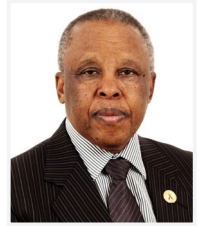

It was then evident that there was a need to train people at higher levels who would influence health policy, regulation and legislation. The University was thus established. AMIU's focus is on training, research and extension in health sciences with emphasis on promotive, preventive, rehabilitative and palliative health. Its commitment is to progressively develop innovative programmes catering to the present as well as future Africa and global health needs.

The University offers postgraduate, undergraduate, higher diploma, diploma, certificate programmes as well as Continuing Professional Development (CPD) courses that prepare human resource for health to serve throughout the health system. AMIU seeks to train transformational leaders who will Inspire Lasting Change.

MESSAGES FROM THE UNIVERSITY

“Our students embody the values that Amref has developed over the last 57 years, including authenticity, community oriented and addressing real community needs. Even though our students are exposed to the world due to our international footprints, they are rooted in their communities as change agents. This is a value we take seriously because for lasting health change to happen, transformation has to happen at community level.”

- **H E Mr Festus Mogae**, **Chancellor, AMIU** -

“We firmly believe that this university embodies the spirit of African brotherhood. It serves as a launching pad for transforming health in Africa, particularly for communities that have traditionally been neglected and disadvantaged. By contributing to equitable access to health training and research, we revitalize primary healthcare across the continent. In the long run, this translates to better access to health services, improved quality of life, higher productivity, and a reduction in premature deaths.”

- **Dr Charles Okeahalam**, **Chair, AMIU Board of Trustees** -

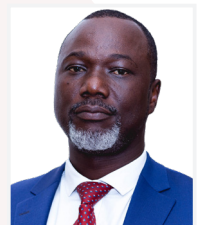

“As an international university, we strive to meet global standards. We have established collaborations with various universities, research institutions, governments and knowledge-based NGOs across the world. These networks and collaborations have enabled us to benchmark our curricula, teaching and research globally.”

- **Muthoni Kuria**, **Chair, AMIU Council** -

“Our graduands not only have the knowledge and skills for the job market but also the values necessary for making the world a better place to live in. They are true ambassadors of the Amref spirit of Ubuntu.”

- **Prof Joachim Osur**, **Vice Chancellor, AMIU** -

KENYA NATIONAL ANTHEM

O God of all creation
Bless this our land and nation
Justice be our shield and defender
May we dwell in unity
Peace and liberty
Plenty be found within our borders.

Let one and all arise
With hearts both strong and true
Service be our earnest endeavour
And our homeland of Kenya
Heritage of splendour
Firm may we stand to defend.

Let all with one accord
In common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labour
Fill every heart with thanksgiving.
